WORK EXPERIENCE

BETTER THERAPEUTICS   Remote
Frontend Software Engineer   Feb 2022 - Mar 2023
- Used React, React Native, and Redux to build mobile and web features consistent across iOS / Android devices and web browsers.
- Optimized and reduced rendering issues of components with multiple large Lottie animations by 70% to deliver a consistent and seamless user experience.
- Developed end-to-end features which included backend / fullstack work such as using Ruby on Rails to update Contentful server-side data models.
- Collaborated closely with designers to effectively translate Figma mockups into responsive & functional code that adhered to design guidelines and standards.
- Enabled media permissions across various devices by successfully upgrading React Native Permissions library & integrating Android's newer media permissions for specific API levels.
- Ensured accessibility for all users on mobile and web applications, including those relying on screen readers.
- Reviewed pull requests and code, providing constructive feedback and asking questions to facilitate personal growth and learning.
- Employed Agile behavior-driven development practices, leveraging Jest and React Testing Library to write user-centric test cases.
- Developed a custom, reusable video component with user-friendly playback controls for play, pause, and seeking, alongside visual progress tracking.

DUANE READE PHARMACY   New York, New York
Staff Pharmacist, Pharmacist-In-Charge   Dec 2018 - Jul 2021
- Managed all pharmacy operations. Reviewed for safety and efficacy, processed, and dispensed over 400 prescription and vaccine orders daily while maintaining standards for health outcomes.
- Contacted doctor for clarification or to recommend alternate treatment if a prescription was not appropriate.
- Streamlined effective workflow that enabled the entire pharmacy team to administer 100 vaccines per day during the pilot COVID vaccine rollout while still managing day-to-day prescription processing and operational responsibilities.
- Trained and mentored newly hired pharmacy technicians and pharmacists to integrate into a fast-paced work environment while maintaining a positive customer experience.

SKILLS

● Javascript	● HTML	● CSS	● React, React Native	● Redux
● Jest	● React Testing Library	● Enzyme	● Ruby on Rails	● Git
